Mr. Nasogaluak,

Re: Information Request # 81 related to the proposed Inuvik to Tuktoyaktuk Highway Project

Please find below the Canadian Northern Economic Development Agency's (CanNor) response to IR #81. The response follows the original IR and is in *italics*.

IR number: 81

Source: MSES Inc.

Subject: Tourism

Request:

1. Please describe the specific activities that your agency or organization will undertake with regard to monitoring project-related tourism (and any effects of this tourism), including the frequency of monitoring. Please indicate which of the measurement parameters listed above your agency or organization will monitor. Please describe any additional indicators or measurement parameters that your agency or organization will monitor. Please explain how the results of monitoring will be reported (both by your agency/organization and to your agency/organization) such that mitigation can be adapted, if necessary.

Answer: CanNor will not undertake project-related tourism monitoring of any of the IR #81 listed measurement parameters included in the IR Preamble nor will it monitor any other additional parameters and, as such, will not have any report(s).

2. Please describe whether and how your agency or organization will be involved in migrating adverse effects of project-related tourism, as well as enhancing positive effects of tourism.

Answer: CanNor will not be involved in mitigating either adverse or positive effects of project-related tourism.

Please contact me if you have any questions or concerns regarding CanNor's responses

Sincerely,

Kevin Lewis
Regional Director
