Subject: Terms of Reference - Tuk-Inuvik Highway
Date: October-12-10 4:59:31 PM

Mr. Nasogaluak, I had the opportunity to review the draft Terms of Reference for the Tuk - Inuvik Highway. Please forward my comments to the Chair and Review Panel for tonight's public meeting in Tuk.

My comments are as followings: The Review Panel should place high regard for presentations by elders in regard to traditional knowledge during the public hearings. In most public hearings, scientific research intend to overshadow traditional knowledge. In regard to wildlife, the environment and land, the Inuvialuit Land Administration (ILA) had very good maps relating to wildlife, land environment. These maps were gathered from our elders many years ago. I hope the ILA will take these maps and use them in their review of the proponents project environmental impact statement.

I will be submitting a written submission to the Review Panel when the actual Public Hearings commence after the Panel decides on the process of the hearing.

Thank you.

Regards:

Calvin Pokiak
